امتحان بكالوريا التعليم الثانوي التجريبي

ثانوية الشهيد قهواجي بوعلام – بوروبة
دورة: ماي 2026

الشعبة: علوم تجريبية، رياضيات، تقني رياضي، تسيير واقتصاد

اختبار في مادة: اللغة الإنجليزية — المدة: 2 سا

على المترشح أن يختار أحد الموضوعين الآتيين:
الموضوع الأول:

Part One: Reading **(15 pts)**
A/ Comprehension **(08 pts)**
Read the text carefully and do the activities.

Online influencer industry has expanded, fuelled by the COVID pandemic lockdown, increased social media platforms and lifestyle appeal of influencership. **This phenomenon** has infiltrated the medical field, where many healthcare practitioners have taken to social media platforms for content creation and influencer marketing.

Many of these rising influencers are medical students, residents, or staff doctors, who accept payment from third parties and promote products and ideas to their audiences. There are many reasons that underlie medical influencership. **Some** may use it to improve public health literacy and correct medical misinformation, engage in medical advocacy or use the platform simply as a means of humanistic expression of the medical career, while others may seek to advertise private practice or medical products, boost personal reputation, and gain popularity and monetary benefits.

Regardless of why they do it, being a health influencer has serious effects because **it** changes how people think about their well-being. When someone gives medical tips online, the biggest danger is spreading wrong information. This can lead followers to try risky treatments or wait too long to see a real doctor. Because many influencers get paid to show products, it becomes hard for their content consumers to tell the difference between real science and a simple advertisement.

Adapted from: https://journals.sagepub.com

1. The text is about:
a) The history of social media platforms.
b) Medical practitioners as online influencers.
c) The benefits of COVID-19 lockdowns.

2. Say whether the following statements are true or false.
a) The COVID-19 pandemic helped the influencer industry grow.
b) Only retired doctors become medical influencers.
c) Medical influencers share information for public health literacy.
d) Online medical tips can sometimes lead to dangerous health choices.

3. Answer the following questions according to the text.
a) Who are the main people involved in medical influencership?
b) Give two positive reasons why doctors use social media.
c) Why is it difficult for people to distinguish between real science and advertisements?

4. Find who or what the underlined words in the text refer to:
a) This phenomenon (§1) b) Some (§2) c) it (§3)

موقع الدراسة
eddirasa.com

B) Text Exploration **(07 points)**

1. Find in the text words closest in meaning to the following:

a) entered (§1) = ... b) False information (§2) =….. c) hazardous (§3) = ...

2. Complete the following chart as shown in the example.

	Verbs	Nouns	Adjectives
Example	**to consume**	**consumerism**	**consumable**
	to influence	.....	.....
	.....	information	.....
	.....	.....	expressive

3. Ask the questions that the underlined words answer.

a) Medical influencers promote **products and ideas**.

b) Many practitioners use social media **to boost personal reputation**.

4. Reorder the following statements to make a coherent paragraph.

a) while sharing their daily experiences in the hospital.
b) to make money through sponsored content.
c) Medical students often join social media platforms
d) However, they must be careful not to spread misinformation

Part Two: Written Expression **(05 points)**

Choose one of the following topics:

Topic 1: You followed medical advice from a famous influencer, but it caused you a health problem. Write a letter of complaint to the National Medical Board to report this influencer. These notes may help you:

- Mention the fake claims made
- Explain the harm caused to you
- The need for stricter regulations on medical content

Topic 2: Many students resort to "copy-pasting" information from the internet for their school projects without citing the original authors. This practice, known as **plagiarism**, is both unethical and illegal. As a member of the school's ***Ethics Club***, write an **article** of about 80 to 120 words for your **school magazine** to sensitize your school-mates about the dangers of this wrongdoing.

الموضوع الثاني

Part one: Reading **(15 points)**

A. Comprehension: **(08 points)**

Read the text carefully then do the activities.

The successful return to Earth of the Artemis II astronauts, following their circumnavigation of the Moon, has stimulated renewed enthusiasm for space exploration. There are many scientific benefits of returning astronauts to the lunar surface, which is the ultimate aim of the Artemis programme. However, missions like Artemis offer something more than scientific achievements alone. **They** provide a cosmic perspective on our own planet.

Images of Earth from the distance of the Moon, reveal Earth to be what it truly is, a small, yet precious, planet suspended in the emptiness of infinite space. Of course, Moon missions have provided this perspective before, most notably by the iconic Earthrise photograph taken by the Apollo 8 astronauts in December 1968. The 2026 Artemis mission now brings this perspective to a new generation. There are no borders visible from space, and such borders have no objective meaning in a planetary context. When **we** see Earth from space, the reality of our interconnectedness becomes undeniable, an experience that has been called the overview effect.

It becomes clear that we are all in it together. Planetary problems, ranging from climate change to endemic warfare, and loss of biodiversity to global pandemics, require planetary solutions. We need to solve our planetary problems collectively on our own planet.

Adapted from: Crawford, Ian. "Artemis II: A Planetary Perspective

1. **Choose a, b, or c to complete the sentence**

a-The primary objective of Artemis II mission is that astronauts orbit …….and return on to Earth.

a- Mars **b- the moon** **c Jupiter**

b- Artemis II pictures…….the traditional theory concerning the shape and atmosphere of Earth.

a- confirmed **b- refuse** **c-reject**

c- Earth limits are not ……from space.

a- obscured **b- shown** **c-seen**

2. **Identify the paragraph in which the following ideas are mentioned.**
   - **a)** Big challenges need to be resolved all together.
   - **b)** The dual purpose of Artemis mission.

3. **Answer the following questions according to the text**
   - **a)** Is Artemis II flight the first to travel toward the lunar space?
   - **b)** Who took the iconic earthrise picture and when?
   - **c)** What are some examples of planetary problems mentioned in the text?

4. **Find who or what the underlined words refer to in the text.**

a- They §1 b- we **§2**

موقع الدراسة
eddirasa.com

B/ Text Exploration : **(7points)**

1. **Find in the text words or phrases that are closest in meaning to the following**

a- Profits §1=…….. b- observable§2=……..

2. **Divide the following words into roots and suffixes**

interconnectedness - emptiness - undeniable

Prefix	Root	Suffix

3. **Combine the pairs of sentences with one of the connectors provided. Make changes where necessary.**

unlike - because of - although - similar to

1/ a-Many rockets have been launched to explore space. Some truths remain unknown.

2/ a-The Soviet space program reached the moon robotically.US sent humans to the moon .

3/ a- Astronauts wear special uniforms. The space is full with radiation.

4. ***Fill in the gaps with only 4 words from the list given*.**

ancient - discipline -evolution sciences - chemistry

Astronomy is the natural science that studies celestial objects such as stars, planets , comets and galaxies. As one of the oldest ……, it has evolved from ancient observations used for navigation and timekeeping into a complex …..that utilizes physics and……. to understand the origin and …..of the universe.

Part Two : Written Expression **(5points)**

Choose one of the following topics:

Topic One : Space exploration has always been a subject of intense debate. While some believe it is a waste of money, others see it as the key to our future. As a student concerned with scientific progress, write an opinion article of about 80 to 100 words for your school magazine in which you discuss the balance between the high costs of space missions and the benefits they provide to humanity. Make the best use of the following notes:

- GPS /satellite weather forecasting
- exorbitant costs / solve Earth problems (hunger , health care …)
- Create jobs
- Risk for astronauts (radiation)

Topic Two : Healthy food has become a necessity rather than a luxury. However, many people still struggle to maintain a balanced diet due to busy schedules and the availability of fast food. As a member of your school's Health Club, write a composition of about 80 to 100 words for the school blog to explain the importance of adopting healthy eating habits.
