Third Term English Test

My School

I am Mariam. I am 13 years old. I am a student at Manama Girl's School. It is near the Manama local markets.

My school is big. It has three buildings that have two floors. There are around 40 classes and three playgrounds where we can play at break time. There is a big canteen and a water closet. There are also a lot of benches for us to sit on. Moreover, we have a library with many books and an electronic class. There are four teachers' rooms and a nursing room.

I like my school so much because it's a place where I can study and meet my friends and teachers.
