Social Media

Social media is a popular tool used by many people all over the world . It has different platforms such as Facebook , Instagram , Twitter and more . They are giving people a chance to connect with each other across distances . Social media has positive and negative aspects.

Social media is considered to be one of the most harmful elements of society . If its users are not controlled , it will lead them to dangerous consequences. Firstly , it can invade people's privacy .The oversharing of photos , videos and social happening on Facebook and Instagram makes children target of hakers and predators. Secondly ,most users of social media become addicted to it , instead of doing homework or practising sport , students waste their time in front of their Ipads , smartphones or computers. Thirdly , social media can simply lead citizens to take wrong decisions because it gives them fake news or wrong information.

In short , surely social media has both advantages and disadvantages. But , it all depends on the users at the end . The youth must create a balance between their academic performances , physical activities and social media.
