Text : **School memories**

The school life is the best life. Anyone who has been a student knows that school life is the golden period of learning and it truly impacts student's lives. School represents an important learning experience which teaches us self-confidence, motivation, and the will to give our best. In addition, school blesses us with friends, many of whom remain with us for the rest of our life.

I clearly remember my first day at school and still feel how warmly I was welcomed. I still remember my teachers. Those who inspired us and encouraged us to keep striving to do our best. Those who were able to incorporate a little fun and excitement to their lessons. They are memorable teachers because they have passion for their job, a passion for life, a passion for learning, and a passion for their students.

Memorable teachers truly care about their students and have a strong desire to see them succeed. My primary school life memories are regarded as a treasure for me.
