Third term English test N°1

3ms

Class :.....	Name :.....	...../ 20

Dear children

I am unhappy, because the environment is in danger. My forests are dying and burning, so many animals can extinct. In addition to this, pollution becomes a major problem. For example, dropping litter everywhere has bad effects on nature; it pollutes air, land and water. Next, cities become bigger and noisier. People have health problems, because factories and transport pollute both air and water. What should you do, now? You should protect nature. You shouldn't drop litter and pollute water. You should recycle litter. You shouldn't use plastic bags. You mustn't kill or hunt animals, because they are our friends. Listen!! Earth is your home! Therefore, please act now otherwise animals will extinct, forests will die and there will be no fresh air.

With love,

Mother Earth.

A/ Reading and comprehension : (7 pts)
