Second term English TEST N 1

MyBlog

Hello! My name's Karen. I'm 14 years old and I live in a big city in Britain called Leeds. Our city is full of busy streets, there are thousands of cars and tall block of flats. There are lots of malls, too. I love them! They are colourful and exciting places. There are cinemas and you can get food that young people like. They often organize pop concerts. And of course there are interesting shops. I usually go to malls to hang out with my friends. We drink cola, have a chat and have fun. I think shopping is great. I buy small things with my pocket money: magazines, chocolate or ice creams. I sometimes do small jobs and I get some money. I save the money then I go to the mall. First I (with my friends) do some window-shopping. I look all the clothes in the shops. I often try on clothes. Now, I'm saving money to buy a pink skirt, a white blouse, high heel Shoes and a necklace for my birthday party. I hope I can get the money soon!

What about you? Do you often go to shops? Do you buy things yourself? What do you usually buy? Do you like window-shopping? Are there any malls near where you live? What are your favourite shops
