A Message from Gaza's Children

We are children who live in the Gaza Strip. Our home is a small place with tiny streets and lots of people who all live really close to each other. Because it's so small, everywhere is dangerous and there is no place to take shelter.

We want you to know that Gaza, our home, is being destroyed. Even the nice places like towers, schools, and hospitals. There isn't much electricity for hours at a time, life is scary now and our rooves are falling on our heads.

A few of us still remember the last war in 2014. Some of us lost people we loved – family members or a favourite teacher. Others remember buildings falling or our mothers trying to clean the house after each bombing. This is happening to us again now. We are terrified and getting more scared all the time.

We know that other children around the world live in peace. While other children dream of having video games, we dream that one day this war will end. We hope that one day we can open our books again, write in our notebooks and study, that we can go outside and play with friends. We want Gaza to be a safe and beautiful place where we can live in peace.
