المدة: ساعة ونصف **MOCK EXAM** الاختبار التجريبي لمادة: اللغة الإنجليزية

Text: **A Dream Must Become a Project!**

Abdelmadjid, a 14 years old determined and ambitious middle school pupil from the beautiful town of Tindouf, Algeria. His dreams are as big as the vast Saharan dunes. What's his dream job? Becoming an AI scientist! He wants to shape the future using code and artificial intelligence.

Abdelmadjid knows that dreams need a plan. First, he will dive into Algerian education, acquiring necessary subjects like Mathematics, Physics and English. He will study hard, mastering machine learning, natural language processing, and data science. His textbooks will fly with him like a spaceship toward the space.

But Abdelmadjid's vision goes beyond the Atlas Mountains. He dreams of crossing the Atlantic, flying to the United States. There, he will explore prestigious universities where famous minds like Belgacem HABA and Ryadh BAGHDADI once walked.

Advice to my partners from the Algerian Middle School:" Listen, friends, be curious and most importantly, be determined and never give up. "Study hard, fellow pupils. Learn from our past, but don't stay stuck there. Let your ambitions grow. Find mentors, collaborate, and create projects that echo across the Mediterranean".

And with that, Abdelmadjid, the future AI scientist, walks toward his dream with self-confidence.

Becoming an English Teacher: A Journey of Passion and Purpose

From a young age, I dreamt about inspiring minds, igniting curiosity, and shaping futures. My ambitious goal is to become an English teacher, not merely because it's a profession, but because it's a calling. In the future, I envision myself standing at the front of a classroom, surrounded by eager faces, ready to embark on literary adventures. Why? Because language is more than words; it's a bridge connecting hearts and cultures. I will try to kindle that spark of love for literature, nurture creativity, and empower my students to express themselves eloquently. I will study the classics, dissect grammar intricacies, and weave stories that resonate. As an English teacher, I'll be more than an educator. I'll be a guide, a mentor, and a lifelong learner.
